

A decorative border of bright green leaves is located at the top of the page, just below the header. The leaves are arranged in a slightly curved line, with some overlapping, and they have a vibrant, almost neon green color. The background behind the leaves is white.

2024 Objectives & Targets: Oakland Corporate

Environmental Aspect

Matson's office and terminal can interact with the environment.

Environmental Impact

Matson's office and terminal may potentially impact the environment by depleting renewable and nonrenewable resources and contributing to global climate change.

Environmental Objectives

Matson employees reduce the environmental impact of office and terminal operations by:

- Tracking and disclosing emissions reduction information through a public Sustainability Report.
- Tracking and reducing resource usage and waste.

Environmental Targets

- Continue to support terminals with standard reporting and make continual improvements to Environmental, Social, Governance (ESG) reporting.
- SQES to coordinate additional volunteer programs for environmental activities.
